LinkedIn: rishab-saini

GitHub: rishabsaini31-maker — Portfolio: portfolio

Education

G H Rasoni International Skill Tech University, Pune, India

Bachelor of Engineering in Computer Science

Nov 2025 – June 2029

Experience

Full Stack Engineer

May 2025 – Present

Freelance / Contract-Based Projects

Remote

- Delivered multiple full-stack projects with production deployment and scalable architecture.
- Built modern web applications using Next.js, Node.js, and PostgreSQL.
- Designed role-based systems, dashboards, and real-time features for client use-cases.

Projects

Inventory Main – Inventory Management System

[Live]

- Built a comprehensive inventory management system to track stock, manage orders, and generate professional billing in real time.
- Implemented multi-user access control with secure role-based operations for business workflows.
- Designed analytics dashboard to monitor sales, inventory trends, and business performance.
- Developed customer management system with purchase history and spending insights.
- Enabled PDF bill generation and profit tracking panel for financial analysis.

Ebook Finance Analytics – Financial Tracking Platform

[Live]

- Built a financial analytics platform to manage daily sales, expenses, and track revenue, profit, and loss.
- Developed interactive dashboards with visual reports (charts and analytics) for business insights.
- Implemented features for expense tracking, pending payments, and loan management.
- Designed reporting system to generate detailed financial summaries for decision-making.
- Improved usability with structured data visualization for performance monitoring.
